Qualifications for Admission

TO THE

WESLEYAN UNIVERSITY.

Candidates for the Classical Course, must be acquainted with the rudiments of the English Language, Colburn's or Adam's Arithmetic, Colburn's Algebra, as far as Quadratic Equations ; Ancient and Modern Geography ; the Latin and Greek Grammars ; Cæsar's Commentaries ; Cicero's Select Orations ; the Bucolics and Æneid of Virgil ; and Jacob's Greek Reader.

Those who wish to take only the English and Scientific Course, must also be acquainted with the preceding branches, except the Latin and Greek, and Ancient Geography.

Candidates for admission must be at least fourteen years of age.

When persons are admitted to an advanced standing, they will be required to pass an examination in the studies which have been pursued by the Section they desire to enter—or in others equivalent to them. They will also be charged with an initiation fee—from four to twelve dollars, according to their different degree of advancement, unless such standing shall have been obtained at another College.

In all cases, satisfactory testimonials of a good moral character must be presented ; and where a candidate has been a member of another College, a certificate of regular dismissal will also be required.

The examination of Candidates can most conveniently be attended to on the Monday preceding the Annual Commencement, though they may be examined during any part of the term.

N. B. It is specially important, that the Candidates be well versed in Arithmetic, on the inductive system.

CLASSIFICATION.

THE Studies pursued at the University are divided into Departments, with a Professor at the head of each.

At present there are five Departments, viz :

- I. Moral Science and Belles-Lettres.**
- II. Mathematics.**
- III. Natural Science.**
- IV. Ancient Languages and Literature.**
- V. Modern Languages.**

The number of these Departments will be increased, as the means of the University permit, and its interests require.

In each Department, the Students are arranged in Sections, according to their different degrees of advancement in the studies of that particular Department—without any reference to their standing in the other Departments, or to the time they have been members of the University. Their standing in each, will be determined by a thorough, annual examination.

Any Student may take a partial or an entire course, as may suit his circumstances ; and when regularly dismissed, he shall be entitled to a Diploma corresponding to his attainments. But no one will be admitted to the collegiate degree of Bachelor of Arts, unless he pass a thorough and satisfactory examination in the entire classical course. Whenever he does this, he will be entitled to his degree, without regard to the time he may have been in the University.

COURSE OF STUDY.

Department of Moral Science and Belles-Lettres.

Elocution—Porter's Analysis.

Jamieson's Rhetoric.

Hedge's and Jamieson's Logic.

Upham's Intellectual Philosophy.

Paley's Moral Philosophy.

Paley's Evidences of Christianity.

Say's Political Economy.

Bayard's Constitution of the United States.

Weekly Exercises, during the whole course, in Composition and Declamation.

The first Section deliver original Essays before the Faculty and Students.

Department of Mathematics.

Day's Algebra.

Legendre's Geometry, (Brewster's Translation.)

Logarithms and Plane Trigonometry.

Mensuration of Superfices and Solids.

Spherical Trigonometry.

Application of Algebra to Geometry.

Projections.

Mensuration of Heights and Distances.

Navigation.

Nautical Astronomy.

Surveying and Levelling.

Differential and Integral Calculus.

Olmsted's Natural Philosophy.

Astronomy.

Department of Natural Science.

Turner's Chemistry.

Shepard's Mineralogy.

Bakewell's Geology, (Silliman's 2d edition from the 4th London.)

The instruction in this Department is conducted by the double method of Lectures and Recitations.

Department of Ancient Languages and Literature.

	{ Don Quijote.

EXAMINATION.

There will be an Annual public Examination at the close of the third Term ;—at which time the several Sections will be examined in all the branches, to which they have attended during the past year.

The Examination will be conducted under the direction of a Committee of literary gentleman—appointed by the Joint Board and the Faculty—who, at the close, will decide on the merits of each student, and advance him or not, as they may think proper.

Public Performances.

Senior Exhibition—at the close of the first Term.

Junior Exhibition—at the close of the second Term.

Commencement—on the fourth Wednesday of August, which is also the Commencement of the first Collegiate Term.

Terms and Vacations.

The Collegiate year is divided into three Terms.

The **Vacations** are :

1. Two weeks succeeding the last Wednesday in November.
2. Two weeks succeeding the fourth Wednesday in March.
3. Six weeks immediately preceding Commencement.

EXPENSES.

Tuition Fees are proportioned to the instruction given to each scholar, at the rate of \$4 per Term, or \$12 per annum for each daily recitation—Provided, however, that no student will be charged less than \$10 per term, or \$30 per annum—Nor over \$16 per term, or \$48 per annum. The average number of daily recitations will be three, which at \$12 per annum, will amount to..... 36 00

Room rent, from \$4 50 to \$6, average 5 25

Board, in Commons, \$1 25 per week, 42 weeks,.....52 50

Washing, Fuel, and Lights, about..... 22 00

Use of the Library, 2 00

General repairs—sweeping, &c. about..... 3 00

Amount per year,

120 75

Room Rent is raised on account of improvements for the convenience of the Students.

The occupants of each room, are made strictly accountable for any damage done to their room.

Pocket money, society fees, books, &c. will vary according to the habits and circumstances of the student. Parents and guardians are earnestly advised, that young men at college, have very little need of spending money ; and in general, it would be much the safest for the student, cheapest for the parent or guardian, and altogether best for the University, to commit the funds of the students to the President, or one of the Professors, who will attend to their wants, and discharge their bills, for which a small commission will be charged.

PAYMENTS.

THE College bills must be regularly paid, or satisfactorily secured for each preceding term, before the student can be admitted to the instructions of the following term.

No student can be received for less than one term, and all will be held responsible for their Tuition fees, whether present or absent, until they are regularly discharged from the University.

The safest way of making remittances from a distance, will be in drafts payable to order in New-York, Philadelphia, or Boston.—When this cannot be done, Notes of any of the Branches of the United States Bank, will be received without discount.

For the information of those who have subscribed scholarships, it should be stated that no Clergyman's Scholarship is available *until paid*.

GENERAL INFORMATION.

Parents and guardians are informed that daily bills are kept of the merit, and demerit, of each student—the former denoting the excellencies of each, in his recitations, and other College exercises—the latter, the deficiencies and delinquencies of each in his respective duties. The President will furnish an exhibit of these records in any particular case, when requested by the student or his friends; and in all cases where the delinquencies exceed a certain number, and where private and public admonition have been given without effect, a statement of the bill of demerit will be forwarded to the friends of such delinquent scholar. This will be the last step of discipline, preceding the final one of suspension or dismissal. The Faculty are determined, that the University shall not be infested, and the whole community embarrassed and perhaps corrupted, by idle or dissolute members.

It should be stated, for the information of the public, that the University Library and the two Society Libraries together, number about five thousand five hundred volumes, and that the University has a very respectable Philosophical and Chemical Apparatus.

For the benefit of such as wish to obtain an education, and have not the means of meeting their Bills, the University makes the following liberal offer, viz: Any student securing, by a responsible bondsman, the sum of four hundred dollars, with annual interest, will be furnished with room-rent, tuition, and board during term-time for four years—and may have his credit extended for the principal, until one or two years after he graduates. In this way, any enterprising young man can obtain an education, without much embarrassment to himself, or risque to his bondsman.

The Joint Board, are making arrangements to connect Manual Labor with the University. But at present, Students cannot calculate upon much income from their labor.
